Eighteenth-century Militia Lists

Dear Sir,

I note that in the Spring 1994 issue of **LPS** (no 52), in his note on occupations, Bernard Nurse does not mention the series of eighteenth-century Militia Lists from which ballots were made. These lists start from 1758 and continue until varying dates toward the end of the century. The Hertfordshire Family and Population History Society is progressively publishing the series in booklet form, and we are up to No 52 at present with others in the pipeline. Further details are available from the address below.

Yours faithfully
F. J. Parker
